# IMPACT EXPERIENCE

# HONDURAS

COST: \$1,500 PER PERSON + AIRFARE

## HANDS-ON ENGAGEMENT WITH EOS STAFF AND CLIENTS

**WORK ALONGSIDE HONDURAN STAFF TO BUILD A COMMUNITY WATER CHLORINATOR**  
**UNIQUE CULTURAL EXPERIENCES SURROUNDED BY INCREDIBLE NATURAL BEAUTY**

**DAY 1** Arrive at Tegucigalpa International Airport (TGU). Meet EOS International staff and drive to our country's headquarters located in Marcala, La Paz. Settle in from the travel day and enjoy a welcome reception and group dinner.

**DAY 2** Join fellow travelers for breakfast (daily) and meet EOS Honduras office staff for orientation and an informational session with EOS CEO Wes Meier. Work with Honduran staff and community members to build a water chlorinator. Then follow the pipes down to the community and visit with a few families to hear their experience and the impact of clean water on their lives.

**DAY 3** Visit a rural community that has benefited from clean water provided by EOS' Water Chlorinator. Meet with the local mayor's office and discuss the interactions between local government and rural communities. Enjoy a nice lunch in the mountainous community, then head out for beautiful waterfall hike with amazing views. End the evening with dinner and a roundtable discussion led by EOS leadership highlighting the organization's successes, challenges, and strategic growth opportunities.

**DAY 4** Tour a local coffee cooperative, where they process some of the highest quality coffee in all of Central America. Partake in a canopy tour over the rainforest. Make our way back to the capital, passing by local artisans, and shop for souvenirs to take home. Enjoy some rest and relaxation with a nice dinner and the final group farewell dinner.

**DAY 6** Depart for home with wonderful memories.
